TRANSPLANT PROGRAMS

GBS is an insurance claim technology corporation. Our focus is to assist organizations in developing a variety of technology - based programs that meet your specific goals.

Our job is to design and implement a program work flow around your goals that leverage our technology and resources to save your firm time and money.

We will assemble a team of experienced, quality professionals specifically for your project.

We would welcome the opportunity to work with your organization from plan conception through final implementation.

Top transplant facilities at your fingertips!

There are more than 300 hospitals in the U.S. performing a variety of organ and bone marrow transplants. Choosing the right facility can be a very challenging process.

Major concerns to consider include the extensive experience and expertise of the transplant team, clinical outcomes associated with that team and facility, and geographical location.

The LifeTrac transplant network serves as the critical link between patient, doctors, medical facilities, and the insurance plan.

LifeTrac network aids patients and their physicians in making informed decisions based upon information specific to the patients needs. A Transplant network also helps contain costs by maintaining direct contracts with the top rated transplant facilities, thus preserving benefit dollars.

Listing of the most common transplants performed:

- Heart – Adult and Pediatric
- Heart/Lung – Adult and Pediatric
- Kidney – Adult, Pediatric and Adolescent
- Kidney/Pancreas – Adult
- Liver – Adult and Pediatric
- Lung – Adult, Pediatric and Adolescent
- Small Bowel/Liver – Adult and Pediatric
- Allogenic BMT – Adult and Pediatric
- Autologous BMT – Adult and Pediatric
- Small Bowel – Adult and Pediatric
- Pancreas – Adult

The LifeTrac transplant network provides access to the most skilled and experienced transplant centers in the world. Large Case Managers work closely with plan members to assure all the resources and assistance are available when needed the most.

Access to the best clinical outcomes at the best price!
